ABHISHEK SHARMA

Software Developer Senior(9 years of Experience)

+91 7259243033   _ abhishekjangid87@gmail.com

> https://www.linkedin.com/in/abhishek-sharma-b15a3961   + Pune, India

SKILLS

Java, Spring, Agile

Oracle, Hadoop, ORMs

Data Structures, Design Patterns

Web, Unix, Shell

EXPERIENCE

Senior Software Engineer
Barclays

~ 09/2018 - Ongoing   + Pune

- Risk Calculation upon trades and feeds generation
- Leading the development of Platform Stability
- Developed tool for big data export/import.
- Developed Performance Stats for various risk data
- Individual contributor of terracotta cache implementation for easy access of big data
- Developed static trade data synchronization process.
- Worked on LIBOR transition global regulatory project and delivered it successfully.

Software Engineer
Citi Private Bank

~ 10/2015 – 0 9 / 2018 + Pune

Citi Private Bank, Pune is mainly focused on Investment Banking application platform development.

- Worked on Portfolio Analysis Tool, Global Data Repository for Alt, Investments & Mutual Funds.
- Single Individual Developer of Report Generation Tool for Business.
- Worked on AIX to Linux Migration of application and design analysis.

Software Engineer
Manhattan Associates

~ 08/2012 - 09/2015 +Bengaluru

Supply Chain application development company

- Worked on Extended Enterprise Management applications like Store Inventory & Fulfillment and Supply Chain Visibility - Worked on enhancements like Prioritization of Orders, Barcode Scanner, i18N.
- Worked on Build Generation, Deployment, Unit Testing and Build Verification Tests
- Worked on Mobile Apps in Java, Extjs for iOS, Android.

CHALLENGES

P Regression Tool Performance

Optimized this tool significantly to import/export big data by using Executors which reduced time consumption almost by 80%.

P Automated Report Generation

Development and Integrated it into Linux env which effectively excluded manual intervention of real time reports generation for trades & positions thrice a month.

P Terracotta Cache Data visibility

Implemented the cache data accessibility in UI for easy access of real time data.
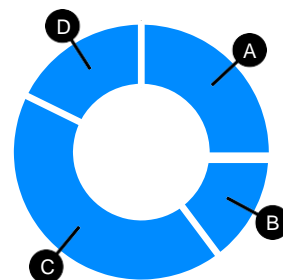

P Static Data Sync Automation process

Implemented the static trade data sync automation process which eased manual intervention on daily basis.

P Cluster migration

Worked on successful migration of our project from Cloudera 5 to 6 as part of technology transformation which was challenging and too timely constraint.

MY TIME

- A Code Review and Architecture designing
- B Analysis on new Requirements
- C Implementation and Testing
- D Production/UAT Issues

EDUCATION

Diploma in Advance Computing
C-DAC, Bangalore

~ 02/2012 - 07/2012 + Bengaluru

Bachelor of Technology
Engineering College Bikaner
~ 06/2006 - 06/2010 + Bikaner

Other Activities

1. Actively participates in blood donation camps.
2. Love Motorcycle Road trips.
